
OUTER HARBOUR MARINA

Around the corner. A world away.

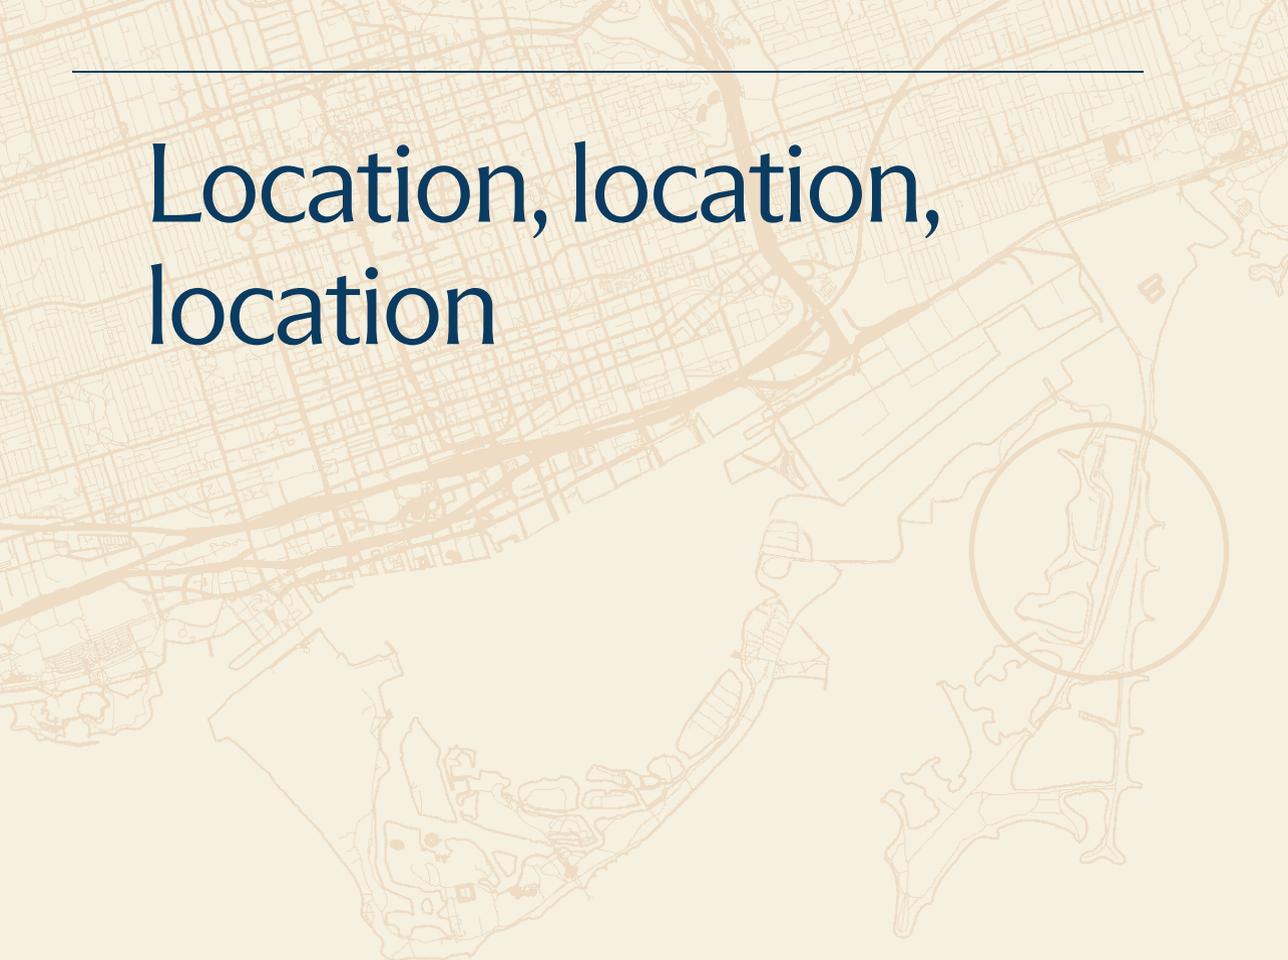

What perfect summer memories are made of

Picture this: you're on the bow of your boat, the sun is setting, the CN Tower slowly lighting up to your starboard side. The heat of the day gives way to a night filled with promise. Do you head back to the comforts of home? Or into the city to let the evening carry you away?

Instead, you stay put, because you're right where you need to be. You're at the Outer Harbour Marina.

Location, location, location

Your seasonal slip is mere minutes from downtown, midtown, Leslieville, Corktown and the Beach, easily accessible by car, bike or ride-share. And once you turn onto our driveway, you'll enter a secluded haven where the chaos of the city just ... melts away.

Next door is Tommy Thompson Park—bring those binoculars for birdwatching—and on the other side, Cherry Beach. It's just like heading to the cottage, but without hours wasted on the highway.

The sheltered waters of the Outer Harbour are ideal for beginner boaters still learning the ropes, giving you prime access to the calmness of Toronto's Inner Harbour and the Islands. For more experienced sailors, the expanse of Lake Ontario is a quick turn the other way. When the weather changes, you're never far from port.

It all adds up to more time on the water than any other marina in Toronto.

Boating without owning

If you're not ready to make the commitment to owning a boat yet, there's no rush. Give it a try with a membership in the Freedom Boat Club, an association with chapters at marinas all around the world—including ours. You'll get training on quality watercraft from seasoned sailors while getting acquainted with all the amenities here.

Visit freedomboatclub.com to learn more.

Protect your investment

Calm waters, floating docks

Nestled between the Leslie Street Spit and our own peninsula, you and your boat are protected by calm waters, regardless of the weather.

If there's a storm surge, our modern floating docks will keep your boat tied up right where you left it.

Add to that our staff's expertise and our roomy slips—we're able to accommodate 80-foot boats—and you'll quickly see why we've been the marina of choice for nautical novices and capable captains alike since 1989.

Responsibility is who we are

A clean and safe harbour means more of us can enjoy boating, well into the future. That's why we've worked hard to achieve a Diamond designation from Boating Ontario's Clean Marine Eco-Rating Program. Also, being part of the Toronto Port Authority ensures that we're entrusted to be proud stewards of the land and water that make up the Outer Harbour Marina.

Big city. Personal space.

More than 600 slips. Space for boats from dinghies to superyachts. All the services and amenities you need for a perfect summer on the lake.

Life is just easier at Toronto's biggest marina. Our spacious slips—also the city's biggest—leave more room for every boat to manoeuvre, more privacy at your slip and more greenspace for relaxing after a cruise. Traffic's bad enough in this city—why should it be at your marina, too?

We have enough space to ensure that your seasonal slip includes complimentary parking, with other spaces available for friends and visitors. Our marina also offers event spaces, full-service bathrooms, showers, laundry facilities, on-site vendors and pop-ups of all kinds.

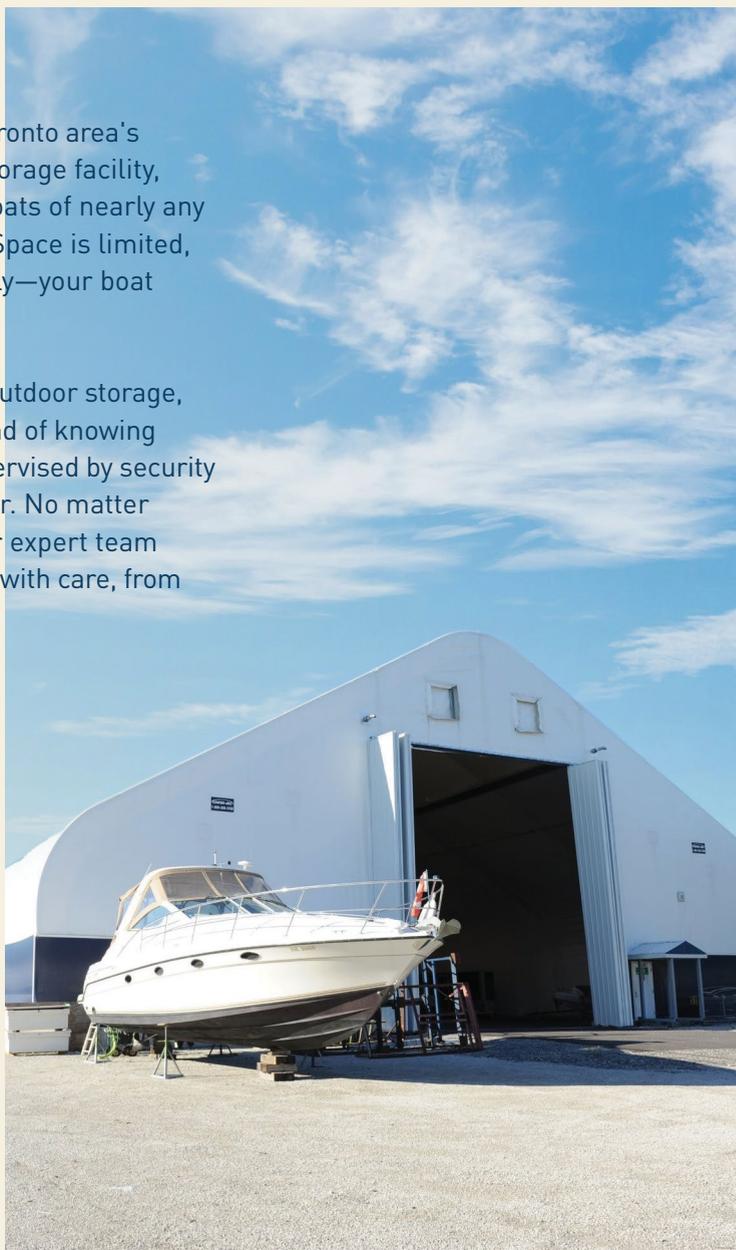

Stop by for a visit, and see it all in person for yourself!

Safe, secure and sheltered

We're home to the Toronto area's only heated indoor storage facility, capable of hosting boats of nearly any size all winter long. Space is limited, so reserve yours early—your boat deserves it.

You can also opt for outdoor storage, with the peace of mind of knowing your boat will be supervised by security throughout the winter. No matter what you choose, our expert team will handle your boat with care, from haulout to launch.

Your one-stop marina

Private-club perks, public-club freedom

A seasonal slip at the Outer Harbour Marina is like being part of a private yacht club, but without the initiation fees, work hours or politics.

You'll be part of a welcoming community of boaters of every skill level, making you feel right at home from your first day on the water.

Accessible and sustainable

We believe that boating truly is for everyone—we even have a wheelchair-friendly dock.

And we pride ourselves on having a Diamond designation from the Clean Marine Eco-Rating Program.

What you'll enjoy
